

PROJECT SCOPE STATEMENT	
Project Name	Meme Generator
Project Deliverables	Detailed Description
High-level deliverable design	Our design will be sooner delivery product. The users will have access to our design as we process every successful stage. For example, the users may have access to create their own meme, while we are working on adding a feature of suggesting meme images.
Project Exclusions	
Our design will not be focusing on saving the user information (the users do not need to sign in in order to use the meme generator.
